Ph.D. Finance. Macro-driven, cross-asset strategist & PM. Creates a TVTP Markov switching model for *dynamic portfolios*. Builds *regime-aware* allocations linking *equity sectors distributions* with macro drivers; expresses views via *inflation/growth expectations* to the yield curve/duration, and through exchange-rate distributions conditional on interest-rate differential in *carry trade* settings

Core strengths: Fixed-Income/FX/Commodities/Equities views & *forecasting* • Private markets (*valuations/illiquid assets*) • Portfolio modeling (*TVTP*/β-hedge/*ML factor research*) • Options/delta-hedging • Client advisory • *Academic papers/publications*

Experience

Portfolio Manager and Investment Strategist, *Bulltick*

Miami, FL, US – 2025

- **Portfolio management:** managing **\$500M** in the Public Markets Portfolios division for UHNWI and institutional clients, and serving as Investment Strategist overseeing **\$4B** in institutional assets within the Sales & Trading division. Built liquidity and cash flows budgeting via navigator tools for alternative assets with J-curve scenarios
- **Portfolio strategies:** three self-developed cross-asset allocation approaches: two quantitative models (i) TVTP Markov switching forecasting and (ii) *custom machine learning* optimization with a *sentiment* component; and a more traditional (iii) top-down and bottom-up cross-validation for β-hedged market neutral portfolios
- **Trade generation:** directional options strategies, delta hedging, and volatility-driven positioning to dynamically adjust exposures and exploit short-term dislocations, balancing long-term stability and short-term alpha through a core-tactical structure

Investment Manager, *GMA International Services, Inc.*

Fort Lauderdale, FL, US – 2024/25

- **M&A valuation:** insourced M&A valuation for **20+** targets; cut fees ~ **40%** and **4x** pipeline throughput
- **Equity research:** factor-informed bottom-up (growth, value, quality, momentum) combined with macro fundamental layer
- **Portfolio management:** sector allocation using GDP-lag/vol regimes for a **\$4M** book with β-neutral hedges. Proposed 5-year commitment pacing plan in alternative assets diversification with PME/KS-PME analytics
- **Real estate:** managed **\$2M** in income-producing residential properties in Italy for *La Promessa*

Researcher, *University of Rijeka*

Rijeka, HR – 2018/19

- **Macro modeling:** multi-country static and dynamic models for fiscal unions with limited commitment frictions, trade-offs in EU state-contingent transfers, and capital accumulation incentives for low-productivity countries. References: Drezgić, S.
- **Lecturer & EU studies:** empirical and theoretical studies on fiscal stimulus, SGP compliance, and labor effects of credit shocks. Lecturer on EMU macroeconomic policy and sovereign risk-sharing mechanisms. References: Cvečić, I., Blažić, H.

Trading Desk Analyst, *IMI Corporate & Investment Banking* – Be Shaping the Future

Milan, IT – 2015/16

- **Investment banking:** delivered valuation analysis and sector reports backed by 3-statement, DCF, comparative methods, and LBO modeling; collaborated with Sales to turn insights into actionable ideas for institutional clients
- **Equity research:** produced equity strategy briefs (bottom-up/price-action overlay) used by Trading to drive client calls
